## Machine Vision Sales Engineer

### Tattile

Have you ever imagined working for a state-of-the-art computer vision company dealing with machine learning based products generating a durable impact for the Planet?

Tattile is a world leader and double-digit growing company, offering cameras, smart cameras, vision controllers and software applications to high demanding industrial customers. All our products are fully developed by our internal R&D team, formed by more than 30 young and dynamic engineers.

### Scope

As a Sales Engineer, you will be responsible for: understanding clients' technical needs and transferring them to Tattile's R&D or to Field Engineering dpt, where specific solutions or customized hardware & software will be eventually developed.

#### ► Responsibilities

- To promote sales of our smart cameras, line scan and digital cameras, vision controller and application software
- To achieve the assigned sales budget
- To attend to international and/or regional shows and workshops
- Interaction with our R&D and Field Engineer team

#### ► Profile

For this job we are looking for someone with a technical degree with sound knowledge in machine vision, with several years of experience in a similar function.

#### You need to be:

- Strongly motivated and poised with initiative in order to grow our business.
- Eager to promote new products and technology to our sales network and potential customers
- Understand the needs of the customer and translate them to the best solution
- Willing to travel and work in a team of professionals
- Experience with Machine Vision solutions is an asset
- English is a must, other foreign languages a plus

### Offer

We offer an excellent salary and the opportunity to be a game changer in an innovative and technology driven company; you will be part of a young and dynamic team, collaborating with a worldwide network of Hi-Tech partners.
