Platform Development Manager

Tattile

Have you ever imagined working for a state-of-the-art computer vision company dealing with machine learning based products generating a durable impact for the Planet?

Tattile is a world leader and double-digit growing player in the ITS (Intelligent Transportation Systems) market, offering edge technology (Smart Cameras + Artificial Intelligence/AI) for Smart Cities and modern, green and safe Mobility Applications.

Scope

The goal of the team is to ensure that Computer Vision system platforms integrating new generation System- on-Chip, algorithms based on Neural Networks theory and FW/SW layered structures, are properly designed, developed and validated for Mobility applications, largely applying V-Cycle methodology.

▶ Requested technical skills

- Excellent know-how of real-time embedded electronic systems and related technologies (microcontrollers, SoC, memories, communication drivers, sensors, connectors), formerly applied to Aerospace, Avionic or Automotive applications
- Good know-how of procedures and regulations for real-time embedded electronics qualification
- Fundamentals of Safety and Security regulations and deployment techniques (HARA, TARA)
- Excellent know-how of V-Cycle product development procedures
- Fundamentals of Agile Scrum / Sprint SW development methodology
- Excellent know-how of planning and monitoring complex multidisciplinary development projects based on platform foundation
- Capability to manage V-Cycle development-based organizations interacting with R&D technologies hubs
- Capability of managing Design Review phases in accordance with R&D System Managers and Operations / NPI department for product industrialization
- Ability of team-working
- Fluent English

▶ SW Tools pre-requirements:

- Project planning (Project, BCS)
- PLM suites

Offer

We offer an excellent salary and the opportunity to be a game changer in an innovative and technology driven company; you will be part of a young and dynamic team, collaborating with a worldwide network of Hi-Tech partners.
