SPEED ENFORCEMENT

Smart Speed

Smart Speed is an advanced system, radar-based, for speed violations detection

- ⚙️ Real time detection of violations with OCR on board
- ⚙️ Embedded multi-tracking radar
- ⚙️ No post-processing required
- ⚙️ Detection of vehicles exceeding average speed or punctual speed limits
- ⚙️ Ability to recognise every plate passing under the camera and not only violators. This is very useful for security or statistical purposes
- ⚙️ All transit plates are recorded and available for further analysis
